

UMB100HR-het - Receiver 1 channel, 12-24v/112p, Superheterodyne, Elmes

- Single channel receiver
- Frequency: 433.92MHz (KEELOQ encoding)
- Maximum number of pilots: 112
- 2 operating modes (monostable and bistable)
- Relay output load capacity AC 120V / DC 30V
- Additional transistor output
- Operation signalling (LED)
- Anti-sabotage output NC
- Power supply: 10-35V DC, 12-27V AC
